

Submission of Research and Analysis Project

In order to submit your RAP, you first need to register. The guidance notes Registration on the OBU RAP submission portal will help you.

Before you start, make sure you know where you have saved all the documents you need. Make sure you have the correct versions of the documents. It is sensible to label these with your student number.

Each element, Research Report, Skills and Learning Statement, Reference list, Excel spreadsheet, Presentation slides, and appendices (including resubmission statement, if relevant) are known as assignments.

There are two stages in the submission process, uploading assignments (the various documents) and submitting the project. The payment of the submission fee follows after submitting the project.

Uploading an assignment

When you log in, this screen appears. You will upload each element (presentation, research report, skills and learning statement, reference list, excel spreadsheet and appendices). The research report and skills and learning statement are uploaded to turnitin. Once you have upload all the necessary elements you will submit the project.

This guidance explains this process.

To upload the presentation, click on this icon
